FOR IMMEDIATE RELEASE

SPECIALTY AMBULANCE INTRODUCED TO CENTRAL IOWA Care, Service, and Safety Bariatric Patients Deserve

March 5, 2010 – Des Moines, IA – Midwest Ambulance Service of Iowa, Inc., recognized as leader in EMS, is pleased to announce they have added to their fleet a specialty ambulance equipped to service bariatric (obese) patients. This specialty ambulance is equipped and ready to transport patients up to 1,200 lbs. The vehicle is comprised of a bariatric ambulance cot, a ramp/winch system, and a Hover mat which allows for easy transfer of the patient from the ambulance cot to a hospital bed. This ambulance will allow obese patients to be transported in a manner that is safe for the patient and crew while providing dignity, comfort, and care. “This specialty vehicle is the first of its kind in central Iowa and we are excited to be the ambulance company to provide this service.” –Kim Chapman President and CEO of Midwest Ambulance Service.

For more information or to schedule an interview/viewing of the vehicle please contact Josh Chapman at 515-313-8845 or Joshchapman@midwestambulance.com
